RESTRICTION REQUIREMENT**

Assistant Commissioner for Patents

P.O. Box 1450

Alexandria, VA 22313-1450

Dear Sir:

In response to the Communication from the Examiner dated March 12, 2007, Applicant elects the species wherein R¹ is (= O), R² is an alkyl group terminally substituted with a reactive group, wherein the reactive group is NHR⁴ (R⁴ being hydrogen), X is O, X¹ is O, and X² is O. Applicant further elects the species wherein R² is n-butyl, as shown in Example 1, compound 4. As in the prior response to restriction, Applicant does not believe that restriction should be required and the Examiner is respectfully requested to reconsider the request for restriction in this application. Applicant notes that upon allowance of a generic claim, Applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 C.F.R. § 1.141. Applicant reserves the right to pursue the subject matter of any claim withdrawn in the present application in a related copending application.
